BETA BENEFITS

- Personalized branding at no additional charge during Beta
- Two additional user accounts at no additional charge during Beta

Paid plans do not begin without at least 60 days' notice. Early Access users keep 20% off the base plan for life.

Monthly Add-Ons

ITEM	PRICE	HOW IT WORKS
Shared Gallery Storage	\$16 / TB / Mo.	Add another terabyte of shared Gallery storage to either plan.
Additional User Account	\$8 / User / Mo.	Add another active CoastPix studio login. Teammates without an activated account do not count against the user limit and can still be used for tracking.
Mobile App	\$5 / Mo.	Add the native CoastPix Mobile App to Studio. It is included with Pro.

Complete Capability Catalog

Studio and Pro are compared side by side. Beta and Coming Soon labels stay in the plan columns so unfinished work is never presented as already released.

Studio Setup And CRM

The people, inquiries, relationships, and brand settings that anchor the studio.

FEATURE	WHAT IT DOES	STUDIO	PRO
Studio Profile And Branding	Logo, colors, business details, address, policies, and client-facing identity in one studio profile.	Included	Included
Lead Pipeline	Capture and organize new inquiries before they become clients and Sessions.	Included	Included
Client And Family Records	Keep clients, family members, attendees, contact details, addresses, Sessions, Galleries, and documents together.	Included	Included
Client Portal Memberships	Invite clients securely, show account status, and support people who belong to more than one studio.	Included	Included
Import Review Workflow	Preview imported contacts and resolve identity conflicts before production records are created.	Beta	Beta
Custom Fields And Studio Notes	Keep the operational context the studio needs without exposing private notes to clients.	Included	Included

Scheduling And Booking

From reusable Session Types to intelligent public availability and multi-session work.

FEATURE	WHAT IT DOES	STUDIO	PRO
Session Types	Reusable offerings with pricing, packages, requirements, contracts, invoices, questionnaires, and email defaults.	Included	Included
Client Self-Booking	A personalized booking page with real-time, up-to-date availability that tracks booked sessions and minis, as well as travel and buffer time, to help avoid overbooking.	Included	Included
Smart Availability	Weekly hours, date overrides, daylight boundaries, travel buffers, saved locations, Google hours, and tenant timezones.	Included	Included
Mini Session Ladders	Multi-client sessions or minis.	Included	Included

FEATURE	WHAT IT DOES	STUDIO	PRO
Admin Booking	Book a client directly using the same session type, location, pricing, and availability as your personalized booking page.	Included	Included
Calendar Sync	Connect Google, Microsoft, and Apple-compatible calendar workflows with conflict awareness.	Included	Included
Multi-Session Booking Plans	Create bookings that contain multiple events, such as wedding packages with an engagement shoot, rehearsal dinner, and wedding day on one contract.	Beta	Beta
Wedding And Event Projects	A single project that keeps engagement, rehearsal, wedding day, events, and post-session work together on one shared timeline.	Coming Soon	Coming Soon

Sales, Contracts And Payments

Selling from the first package through signature, invoice, and payment.

FEATURE	WHAT IT DOES	STUDIO	PRO
Packages, Add-Ons And Line Items	Build the Session package, add products and services, preserve catalog links, and keep shipping context with the sale.	Included	Included
Quotes And Proposals	Create, preview, send, and track branded proposals with reusable templates and stored documents.	Included	Included
Contracts And E-Signatures	Send customizable contracts, capture signatures and initials, keep a clear history, and store the signed PDF.	Included	Included
Invoices And Online Payments	Create invoices, accept online or manual payments, and keep totals accurate.	Included	Included
Booking Payment Plans	Configure retainers, full-payment requirements, balance milestones, and multi-session allocation at the Session Type level.	Included	Included
Refunds And Payment Corrections	Record refunds and payment corrections without changing the original payment history.	Included	Included
Gift Cards	Sell, redeem, track, correct, and restore gift-card value through a canonical event history.	Included	Included
Shipping And Tax	Save shipping addresses and automatically calculate or record sales tax while keeping issued invoices unchanged.	Included	Included

Session Cockpit And Day Of

One operational workspace before, during, and after every shoot.

FEATURE	WHAT IT DOES	STUDIO	PRO
Session Lifecycle Cockpit	See booking, contract, payment, questionnaire, shoot, and Gallery milestones with the next required action.	Included	Included
Session Sales Workspace	Review packages, add-ons, shipping, Quotes, Contracts, Invoices, and payment history without leaving the Session.	Included	Included
Shot List	Prepare requested shots, mark them captured in the field, and keep the canonical list with the Session.	Included	Included
Packing Lists	Create customizable, reusable packing lists so you are prepared for every session.	Included	Included

FEATURE	WHAT IT DOES	STUDIO	PRO
Attendees	Track the people participating in the Session separately from the billing client.	Included	Included
Field Weather	Show a five-day Session forecast with conditions and temperature ranges at the shoot location.	Included	Included
Session Communications	Plan, preview, send, and review customizable messages for each session with your branding.	Included	Included
Session Expenses And Profitability	Capture Session costs and compare canonical revenue, tax, fees, fulfillment, expenses, and profit.	Included	Included
Wedding And Event Timeline	Plan the wedding day or event with a clear timeline that shows what is happening now and what comes next.	Coming Soon	Coming Soon

Galleries And Delivery

Branded image delivery, review, conversation, and client access from desktop or phone.

FEATURE	WHAT IT DOES	STUDIO	PRO
Client Galleries	Create branded Galleries with sections, covers, access controls, Sessions, clients, and delivery status.	Included	Included
Lightroom Classic Publishing	Publish and update galleries connected to your sessions directly from the CoastPix Lightroom plug-in.	Included	Included
Favorites And Photo Feedback	Clients can favorite photographs and hold image-specific conversations without losing Gallery context.	Included	Included
Downloads And Sharing	Deliver secure image access, individual saves, share links, and photographer-controlled download policies.	Included	Included
Premiere Gallery Experience	Create a cinematic client reveal with music, sequence, reactions, and a return to the complete Gallery.	Beta	Beta
Shared Gallery Storage	Keep full-resolution originals in shared Gallery storage and deliver fast client experiences wherever they are.	500 GB	1,000 GB
Full-Resolution Export	Download original work without a hostage fee or a plan-specific export lock.	Included	Included

Store And Print Fulfillment

Retail pricing, client purchasing, and lab fulfillment without a percentage platform commission.

FEATURE	WHAT IT DOES	STUDIO	PRO
Products And Price Sheets	Define retail products, sizes, lab mappings, costs, prices, shipping, and Album-specific price sheets.	Included	Included
In-Gallery Store	Open the Store from a photograph, choose a product and crop, and return to Gallery browsing.	Beta	Beta
Tax-Aware Checkout	Use the studio's selected Stripe Tax, third-party, manual, or no-tax policy with a real shipping destination.	Beta	Beta
Order, Client And Session Visibility	Keep print orders connected to the purchaser, Client, Session, Bookkeeping Ledger, and Session Profit And Loss.	Included	Included

FEATURE	WHAT IT DOES	STUDIO	PRO
Print Lab Fulfillment	Send supported client orders into a connected professional print-lab workflow while keeping fulfillment costs separate.	Beta	Beta
Zero CoastPix Commission	CoastPix does not take a percentage of studio sales. Processor, tax, shipping, and fulfillment costs remain separate.	Included	Included
Additional Fulfillment Labs	The lab-neutral order boundary is ready for future vendor adapters without changing the client Store model.	Coming Soon	Coming Soon

Bookkeeping And Finance

Operational financial records and accountant-ready workpapers without pretending to be a full general ledger.

FEATURE	WHAT IT DOES	STUDIO	PRO
Income And Expense Ledger	Unify paid invoices, Store sales, expenses, refunds, credits, corrections, and allocations from canonical records.	-	Included
Receipt Capture And OCR	Scan or upload a receipt so Dock can suggest the vendor, date, amount, tax, category, and Session allocation.	-	Included
Cash-Basis Profit And Loss	See tenant-timezone revenue, expenses, net profit, category rollups, and Schedule C mapping.	-	Included
Session Profit And Loss	Understand job-level revenue and cost from the same financial engine used by studio reports.	-	Included
Liabilities And Sales Tax	Separate tax collected from revenue and report liability by payment date and selected period.	-	Included
Accountant Package	Export the operational ledger, reports, liabilities, attachments, and supporting schedules for review.	-	Included
Accountant Relationship	Link an accountant through the Team model without granting unrelated studio permissions.	-	Included
QuickBooks Online Connected	Approved architecture for OAuth, mappings, outbox delivery, webhooks, and divergence review; implementation is not yet live.	-	Coming Soon
Nightly Financial Reconciliation	A future stored-versus-derived integrity sweep that alerts the studio when canonical totals drift.	-	Coming Soon

Website Builder And Domains

Build the studio's public home, connect booking and Galleries, and publish it under the right address.

FEATURE	WHAT IT DOES	STUDIO	PRO
Studio Website Builder	Build and publish a responsive photography website without leaving CoastPix.	-	Included
Photography Page Sections	Compose pages from photographer-oriented hero, portfolio, service, testimonial, contact, and call-to-action sections.	-	Included
Website Draft Preview	Preview unpublished website changes across desktop, tablet, and phone layouts before publishing.	-	Included
Gallery And Booking Links	Connect public Galleries, client booking, login, gift cards, and contact actions directly from the website.	-	Included

FEATURE	WHAT IT DOES	STUDIO	PRO
Website Typography And Branding	Apply studio colors, logos, editorial type choices, navigation, and calls to action consistently across the site.	-	Included
CoastPix Studio Address	Every studio receives a permanent CoastPix subdomain that remains available as a backup.	Included	Included
Use Your Own Domain	Connect an existing-site subdomain or host the full website and application on the studio's own verified domain.	-	Included
Scheduler Embed	Embed the branded scheduler on an approved external website.	Included	Included
Domain Registration Concierge	Search, payment, audit, and handoff surfaces exist, but registrar automation remains disabled until provider readiness is complete.	Beta	Beta
Portable Studio Identity	Keep the custom domain and full-resolution work portable if the studio ever leaves CoastPix.	Included	Included

Document And Workflow Templates

Reusable studio documents that keep every client experience branded and consistent.

FEATURE	WHAT IT DOES	STUDIO	PRO
Contract Templates	Create reusable contract language, merge fields, signing requirements, and Session Type defaults.	Included	Included
Invoice Templates	Reuse invoice terms, payment language, line-item defaults, and presentation across Sessions.	Included	Included
Questionnaire Templates	Build reusable question sets, attendee prompts, required responses, and Session Type defaults.	Included	Included
Email Templates	Manage branded lifecycle messages, subjects, merge fields, previews, and per-Session-Type overrides.	Included	Included
Packing List Templates	Create grouped packing checklists and attach an editable snapshot to each Session.	Included	Included
Copy From Existing Template	Start a new editable draft from an existing Contract, Invoice, Questionnaire, or Packing List template.	Included	Included

Email, Notifications And Messaging

Branded communication with lifecycle context, preferences, and a durable activity history.

FEATURE	WHAT IT DOES	STUDIO	PRO
Branded Email Delivery	Send studio-branded lifecycle email with resolved client, Session, document, and payment context.	Included	Included
Scheduled Session Messages	Plan messages relative to the Session, preview the resolved content, and review historical delivery.	Included	Included
Lifecycle Notifications	Booking, contract, payment, Gallery, calendar, fulfillment, and platform events share a canonical event catalog.	Included	Included
Notification Preferences	Choose email and native-push delivery per real event while in-app activity remains canonical.	Included	Included

FEATURE	WHAT IT DOES	STUDIO	PRO
Client, Company And CoastSupport Chat	Use the appropriate tenant, client, company, or platform-support persona with attachments and conversation tools.	Included	Included
Voice, Video And Screen Sharing	Partial provider plumbing exists, but general calling, consent, authorization, and native parity are not released.	Coming Soon	Coming Soon

Team And Permissions

A studio organization model that includes people without forcing every person to become a paid login.

FEATURE	WHAT IT DOES	STUDIO	PRO
Teammates	Keep employees, contractors, second shooters, assistants, and partners in CoastPix for tracking, even if they do not need an activated account.	Included	Included
Branded Team Invitations	Invite active users through a studio-branded acceptance flow with an explicit access profile.	Included	Included
Photographer-Native Access Profiles	Separate owner, photographer, editor, assistant, bookkeeping, and accountant access instead of using one broad admin role.	Included	Included
Permission Enforcement	Apply the same access contract in navigation, server routes, mobile APIs, and database policies.	Included	Included
Organization Chart And Team Tasks	Show relationships, managers, profiles, account state, and scoped Team work in one workspace.	Included	Included
Independent Accountant Access	Keep accountant relationships distinct from studio employment and unrelated client or Session access.	Included	Included
Additional Active Users	Add studio logins beyond the plan allowance without charging for No Account people.	Coming Soon	Coming Soon

Dock AI

An assistant that understands the studio and can use reviewed CoastPix tools instead of only writing generic copy.

FEATURE	WHAT IT DOES	STUDIO	PRO
Studio-Aware Assistant	Use the studio's real records, permissions, timezone, and current screen as conversational context.	Included	Included
Action Tools	Review supported actions and let Dock operate canonical CoastPix workflows instead of creating parallel state.	Included	Included
Knowledge And Product Guidance	Answer CoastPix workflow questions from the maintained Knowledge Base and product context.	Included	Included
Financial And Session Answers	Use shared financial and Session projections so Dock totals agree with the application.	Included	Included

Native Mobile

A photographer field application built natively rather than opening CoastPix web pages inside the app.

FEATURE	WHAT IT DOES	STUDIO	PRO
Native Studio Workspace	Home, Calendar, Clients, Messages, More, theming, authentication, and workspace switching are implemented in native source.	\$5 Add-On / Beta	Included / Beta
Native Session Cockpit	Review lifecycle, finances, packages, Quotes, Contracts, Questionnaires, Invoices, Expenses, Galleries, and destinations.	\$5 Add-On / Beta	Included / Beta
Native Day Of	Use Shot Lists, Packing Lists, Attendees, and per-workspace layout preferences from the field.	\$5 Add-On / Beta	Included / Beta
CoastLight Meter	Use reflected average and spot metering, exposure modes, presets, reciprocity, references, and quick-launch infrastructure.	\$5 Add-On / Beta	Included / Beta
Receipt Camera And Native Expenses	Capture a receipt, run OCR, and preselect the related Session from the native app.	\$5 Add-On / Beta	Included / Beta

Security, Ownership And Support

The operational boundaries that protect studio data and keep the photographer in control.

FEATURE	WHAT IT DOES	STUDIO	PRO
Tenant-Scoped Data Access	Keep studio, client, Session, finance, and mobile records scoped to the authenticated tenant and role.	Included	Included
Authenticated Client Access	Use secure membership, tokens, and branded authentication across CoastPix and verified custom domains.	Included	Included
Audited Support Sessions	Allow bounded CoastSupport troubleshooting without replacing the platform operator's own login.	Included	Included
Account Lifecycle Controls	Pause, disable, restore, or remove access through reviewed studio and platform workflows.	Included	Included
Password Manager	Store studio credentials and sensitive account references in a tenant-scoped Password Manager with protected reveal controls.	Included	Included
Data Portability	Keep full-resolution exports and the studio's domain portable rather than using access as a retention mechanism.	Included	Included
Standard CoastSupport	Reach CoastSupport from either account level for product guidance and troubleshooting.	Included	Included
